OMARK INDUSTRIES, INC.

9701 S.E. McLoughlin Blvd., Portland, Oregon 97222 Area Code: 503/654-6531

OREGON MICRO-BIT, CHIPPER, CHISEL, MICRO-GUARD, SPEED-GUARD, S-70 CHAINS

WHEN ORDERING

1. Please use part number as shown or make up part number from the instructions below.
2. To find list price of any cut chain not listed, turn to page 20 or 21, find column heading showing CHAIN NUMBER & TYPE; follow column down to line showing drive link count. This figure is the list price of the chain.
3. All cut lengths of chain listed herein include a guarantee and filing instructions.
4. Where OREGON sprocket numbers are NOT listed: sprockets are available from the saw manufacturer.

CHAIN PART NUMBER EXPLANATION

- First figure denotes chain number, such as 4, 12, 17, etc.
- Letter A or B immediately following chain number indicates modification of chain.
- Letter following first figure (or figure with modification letter) denotes type of chain, such as "C" for Micro-Bit and Chipper, "L" for Chisel, "CP" for Micro-Guard, "D" for S-70, DP for Speed-Guard.
- The figure 2- or 3- following the letter "C" indicates depth gauge setting of .020" or .030", respectively.
- The next figure combination indicates actual drive link count, and final letter indicates type of chain ending: "E" for endless loop.

Example: 4L-52E denotes No. 4 chain, chisel type, 52 drive links, endless.

Example: 61AC3-60E denotes No. 61A chain, chipper type with .030" depth gauge setting, 60 drive links, endless.

Example: 59CP3-65E denotes No. 59 Micro-Guard, 65 drive links, endless.

Example: 72D-48E denotes No. 72D chain, S-70 type, 48 drive links, endless.

CUT LENGTH CHAIN PRICE INSTRUCTIONS
FOR PAGES 20 AND 21

To determine price of any cut length of chain, find column of type chain on pages 20, 21. Follow column down to Drive Link Count or length to be sold. This is the list price. For example: 38 drive links of Type 4C Chain in Column 4 measures 42¾" at a price of $21.40.

For chains measuring less than 32 Drive Links, we suggest using the following chart:

MICRO-BIT, MICRO-GUARD, S-70, SPEED-GUARD & CHIPPER CHAIN

TYPE	PRICE Per Foot	Per Inch
11BC, 72D, 72DP, 73D, 73DP, 12C . 31C3, 32C3, 58AC, 59AC, 58CP3,	$6.20	.52
59CP3, 50CP, 68C, 69C	$6.08	.51
11RC	$6.46	.54
All Others	$5.98	.50

CHISEL CHAIN

TYPE	PRICE Per Foot	Per Inch
All Types ..	$6.20	.52

WHEN SELLING A NEW CHAIN

- Be sure to install a new sprocket with new chain.
- Be sure the bar is in good condition.
- Be sure chain is installed in correct direction and tensioned properly.
- Show customer how to break in and maintain his chain, according to the instructions packed with each chain.

OREGON ADVERTISING AND PROMOTION

OREGON Saw Chain is backed by the industry's largest and most comprehensive advertising and promotion program. A year-'round campaign presents the OREGON story to farmers, loggers, pulpwood cutters, casual users in a variety of publications. Millions of our advertising messages appear in national, regional and local editions of farm, professional and outdoor magazines.

Sales literature — catalogs, price lists, mailers and folders — help promote OREGON products to your customers. Our representatives present our products at national and regional trade shows. For point-of-purchase advertising, we supply dealers and distributors with many merchandising aids — signs, displays, decals and goodwill builders. And, to make the promotion package complete, we offer a cooperative advertising program which supplies the materials and pays for half media cost.

When you sell OREGON products you can be sure that you are getting the benefits of advertising that match their high quality.

OREGON MERCHANDISING DISPLAYS

These displays are available from OREGON Saw Chain distributors.

1. Super-Tronic Saw Bar display will hold up to 50 hard nose and roller nose bars. The illustration on the display points out the important features of OREGON bars. Wood grain display is designed for wall hanging. Part No. C7-3.

2. Accessory display board is designed to hold attractively skin packaged file holders, Gaugit Jointers and pocket chain breakers. Colorful metal display is only 16″ x 18″, takes up little counter space, yet sells big. Part No. 64567.

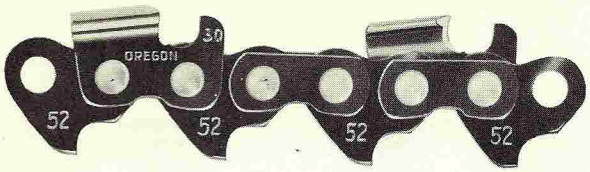

3. OREGON Plastic Wedge display is attractive wood grain, designed to hang on the wall. Four sizes of wedge in falling and bucking style are skin packaged for easy display on the 24″ x 8″ unit. Part No. C6-32.

4. The Power Mate Sprocket display features a helpful listing showing which drum fits which saw, a feature liked by customers and dealers alike. This wood grain display is designed for either wall hanging or counter top. Part No. C5-6.

5. Medallion Saw Chain File display will hold up to a dozen skin pack cards of files, 12 to a card. Of wood grain, too, this display can be wall hung or used on the counter top. Part No. C7-15.

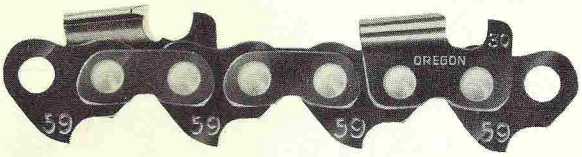

NOTES

OREGON SAW CHAIN & ACCESSORIES

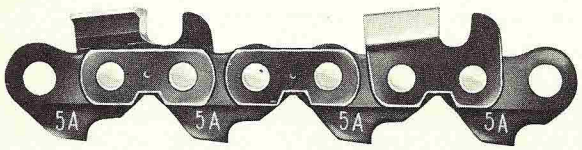

CHIPPER CHAIN

The original Chipper Chain is self-feeding and easily sharpened. Made the largest number of types and sizes—from 3/8" to 3/4" pitch. Most popular of all saw chains.

MICRO-BIT CHAIN

Top quality chain of the industry. Faster, smoother cutting; longer cutter top plates for speed and long life. Made in .404", 7/16" and 1/2" pitches.

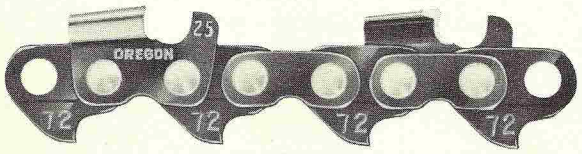

CHISEL CHAIN

Square cutting edges for high efficiency and smoothness. Never cuts same cross grain twice—removes more wood in single pass. Requires skillful filing. 5/8", 9/16", 1/2" pitches.

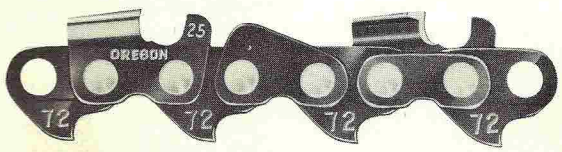

MICRO-GUARD CHAIN

For safer cutting of small diameter wood. Guard links reduce kickback when cutting limbs, pulpwood or brush. Same basic chain as Micro-Bit with addition of guard links.

S-70

Enables small, compact saws to produce as much as larger saws. "Square" design cutters combine speed of Chisel chain with easy-filing feature of Chipper chain. 3/8" pitch.

SPEED GUARD CHAIN

Same type chain as S-70 with addition of guard links for maximum safety in cutting small timber, limbs, pulpwood and brush. 3/8" pitch.

OREGON® Super-Tronic Saw Bars

HARD NOSE

Highly wear-resistant cobalt-tungsten alloy covers 40% more of the heavy-wear nose area of your bar than ever before. Exclusive with OREGON . . . no other manufacturer offers this superior armor tipping.

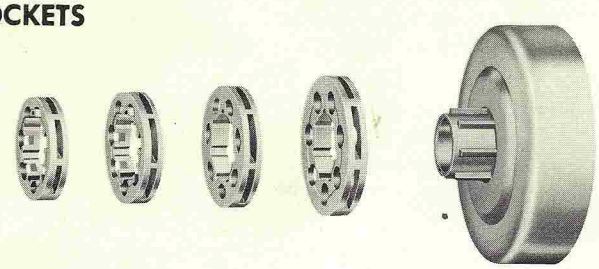

ROLLER NOSE

Save dollars with a roller nose bar . . . friction around the nose is reduced 20% with the roller assembly, minimizing bottom wear on chain, increasing cutting speed, reducing fuel consumption.

OREGON SPROCKETS

OREGON POWER-MATE SPROCKETS

Self-Aligning Rim Sprockets have twice the life of ordinary sprockets. Rim slides on drum for perfect mating of chain with bar. Smoother, freer chain operation results. Less wear and damage to chain. Four rim sizes, 23 drum sizes.
Standard gear drive and direct drive sprockets still available.
