ALL NEW McCULLOCH SUPER PINTAIL® CHAIN

CUTS SMOOTHER, FASTER, STAYS SHARP LONGER

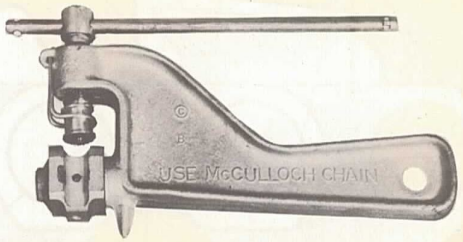

1. **Exclusive Pintail feature** controls the rearback of the cutter teeth to maintain the most efficient cutting angle.
2. **New higher cutting tooth** assures faster chip removal.
3. **New depth gauge** is easier to maintain – has better feeding characteristics under all cutting conditions.
4. **Heavy-duty precision parts,** made of the finest high-carbon tool steel specially heat treated, are used throughout, making Super Pintail far stronger than ordinary chain.
5. **Chromed cutter teeth** are tough and durable with cutting edges that stay sharp longer require far less filing.
6. **Precision machined rivet holes,** with more rivet bearing area than any chain in the industry – due to thicker, heavier center link, meet exacting tolerances for less stretch, longer chain life.
7. **Perfect mating of rivets** and rivet holes keeps wear producing abrasive material out – oil in for longer life.
8. **Heavy gauge side links** are wider, stronger, to wear far longer.
9. **When it's time to file** you'll find the new tooth design makes Super Pintail the easiest filing chain in the industry.
10. **McCulloch mixed pitch** on Super 8 and Super 65, gives extra strength around rivet holes for added chain life.
11. **New contoured links** for better chain stability.
12. **Dulite coating process** gives Super Pintail a satin-smooth finish for rust prevention – better oil retention.

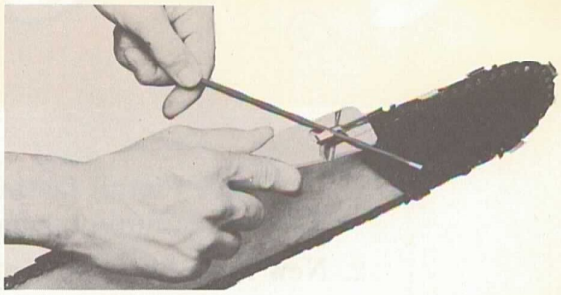

There's a Super Pintail Chain for Every Chain Saw.
