# SERVICE BULLETIN #1037

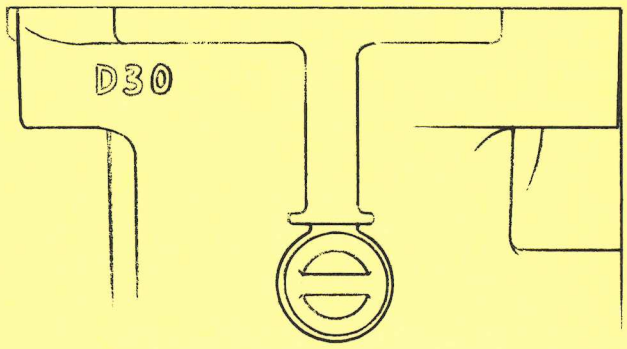

SUBJECT IDENTIFICATION OF CRANKCASE-CYLINDER ASSEMBLIES

MODEL D30, D36, D44, 55, S44, S55, S44A, & S55A DATE 9/3/58

Because of the great similarity between the crankcase-cylinder assemblies of the above listed saw engines, it has become necessary to establish a positive method of identifying them. The model designation is stamped on the underside of the crankcase-cylinder assembly in the location shown below.

Since Model S44 and S55 use the same crankcase-cylinder assembly, both model designations will be stamped on it. This same procedure will be followed in the case of the S44A and S55A which also use the one crankcase-cylinder assembly.

| Assembly No. | Stamped |
|---|---|
| 50086 | D30 |
| 50216 | D36 |
| 55099 | D44 |
| 51935A | 55 |
| 55001 | S44/S55 |
| 55301 | S44A/S55A |
