McCULLOCH

SERVICE BULLETIN #1105

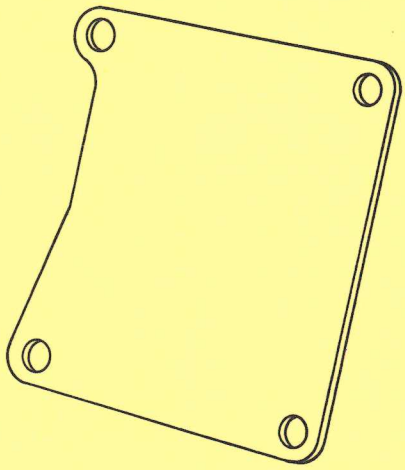

SUBJECT **PROTECTIVE PARTS ADDED TO PLUNGE BOW KIT**

MODEL **1-61**, 1-60, 1-81, 1-80 DATE 9/16/60

To protect the crankcase bottom and the fuel tank assembly of the above listed chain saws, two new parts have been added to the Plunge Bow Kit, P/N 55152:

P/N 57494
Chain Guard

P/N 57530
Crankcase Cover Plate

The Chain Guard, P/N 57494, replaces the earlier chain guard, P/N 51889, when the Plunge Bow Kit is installed on Model 1-61 and 1-60 engines only. When the Plunge Bow Kit is installed on Model 1-81 or 1-80 engines, use the earlier 51889 chain guard in place of the new 57494 chain guard.

The new Crankcase Cover Plate, P/N 57530, is used with the Plunge Bow Kit on all 1-81, 1-80, 1-61, and 1-60 engines. It should be mounted on the crankcase bottom cover using the four crankcase bottom cover screws.
