McCULLOCH

SERVICE BULLETIN # ~~1153~~

SUBJECT SCREW SIZES AND DESCRIPTION

MODEL **ALL**

DATE 1/9/62

This Bulletin replaces Service Bulletin #1085.

To help you in identifying, stocking, and re-ordering screws used on McCulloch chain saws, the following list has been prepared.

Screws are listed by size and length. Many screws which are similar in size and length have different heads or heat-treatment. If your stock of one particular screw is low, check this list to find the comparable screw which will substitute in its place.

NOTE

Heat-treated screws, which possess greater tensile strength and hardness, should never be replaced by machine steel screws. However, machine steel screws can be replaced by heat-treated screws.

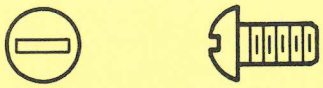

All heat treated screws in the list are marked with an "X" in the right-hand column.

HEX HEAD SCREW

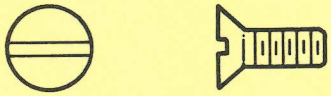

FILLISTER HEAD SCREW

ROUND HEAD SCREW

OVAL HEAD SCREW

FLAT HEAD SCREW

PAN HEAD SCREW

SOCKET HEAD SCREWS

TRUSS HEAD SCREW

SET SCREW

TAPPING SCREWS
(various heads)
