McCULLOCH

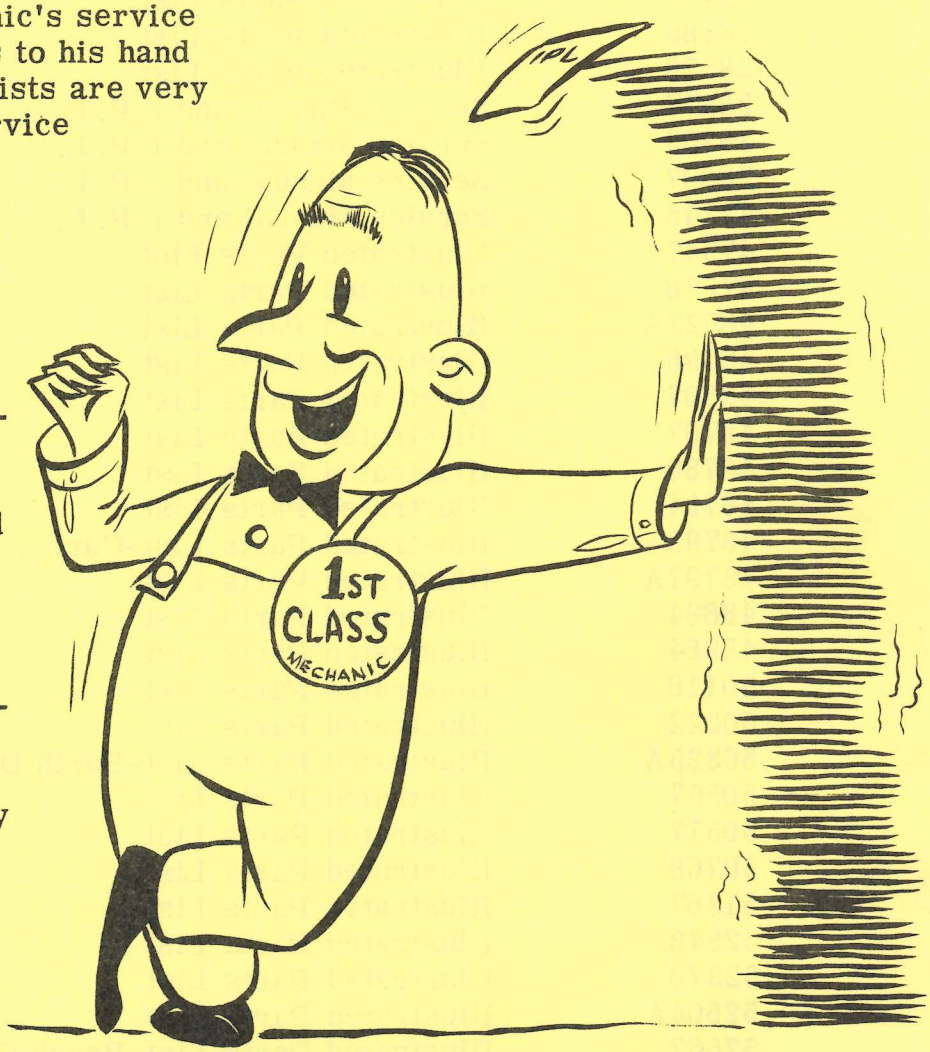

SERVICE BULLETIN #1198

SUBJECT CURRENTLY AVAILABLE ILLUSTRATED PARTS LISTS

MODEL ALL

DATE 9/11/62

The old saying, "A MECHANIC IS ONLY AS GOOD AS HIS TOOLS," can be applied to a mechanic's service publications file as well as to his hand tools. Illustrated Parts Lists are very important tools for the service repair bench. If your file of Illustrated Parts Lists is not complete, you are being unfair to your customer and yourself.

To help you complete your set of service tools by filling the gap in your files, the following list of currently available Illustrated Parts Lists has been prepared. This list gives the part number, description, and model. Some of these publications are in a limited supply, so we urge you to order the ones you need as soon as possible. Many of these Illustrated Parts Lists will not be reprinted when the present stock is exhausted.

PART NO.	DESCRIPTION	MODEL
