SUBJECT: SPARK ARRESTER SCREENS

With the approach of hot weather and fire danger in many areas, spark arrester screens may be required for safe operation. Screens and baffles listed below are available for McCulloch chain saws. All of them comply with forestry regulations which limit spark emission in fire hazard areas.

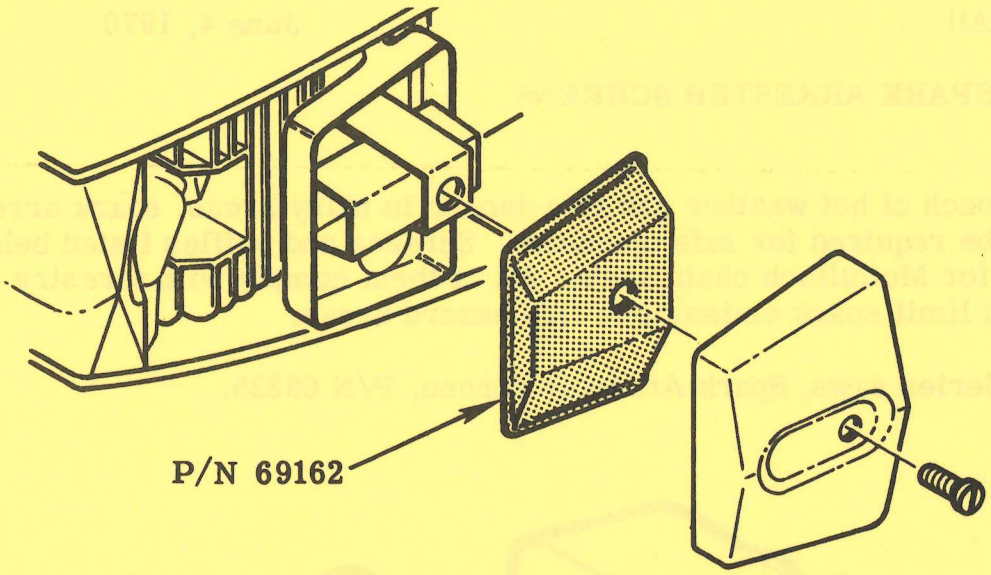

For MAC 10 Series saws, Spark Arrester Screen, P/N 65325.

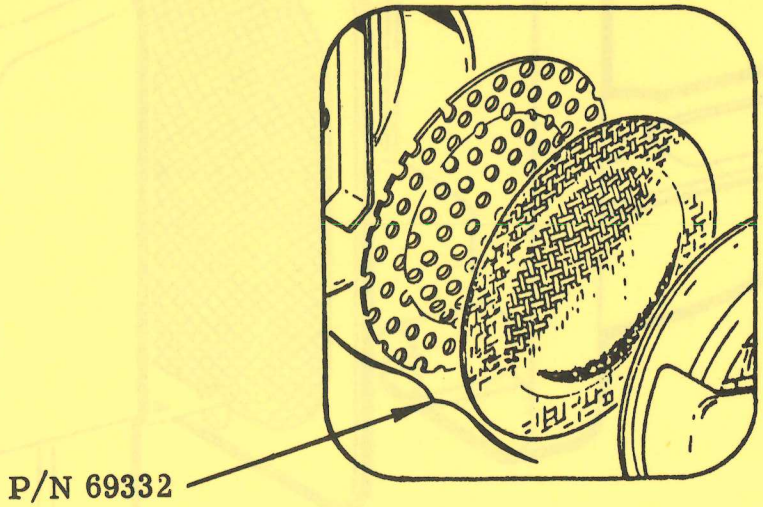

Screen, P/N 65325

NOTE: Spark Arrester Screen Kit, P/N 83406, is also available for MAC 10 Series saws (and other models) which are equipped with flat, reed-type muffler.

For Power Mac 6 Saws, Spark Arrester Screen, P/N 69162.

For other McCulloch chain saws having a round, clamp-type muffler, use Baffle Kit, P/N 69332. This kit consists of a perforated baffle and a fine mesh spark arrester screen.
