McCULLOCH

SERVICE BULLETIN

NO. 1575

MODEL SP-81. DATE October 17, 1974

SUBJECT Carburetor High-Speed Jet Change.

All SP-81 production chain saws, Model 600438D, beginning with Serial Number 12-16101, are equipped with No. 29 high speed fuel Jet, P/N 90349, in the carburetor. The production standard high-speed jet size used in Model SP-81 prior to S/N 12-16101 was No. 31, P/N 90348.

In conjunction with the jet size change in production Model SP-81 chain saws, the No. 29 jet will also be standard equipment in the SP-81 Carburetor, P/N 89882, shipped from the factory on service parts orders beginning August 1, 1974.

Carburetor, P/N 89882, with No. 29 as standard, is identified with the letter "A" after the SDC number on the carburetor body adjacent to the diaphragm cover, "SDC 51A".
