McCULLOCH SERVICE BULLETIN

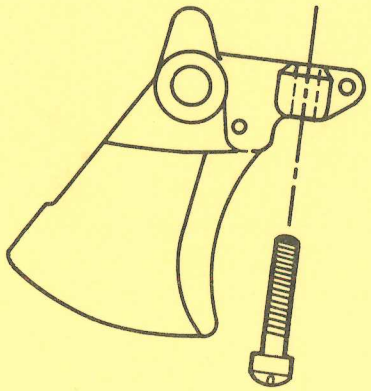

NO. 1582

MODEL Various DATE January 9, 1975

SUBJECT Advance Idle Screw

Advance Idle Screw, P/N 110668, is the new service replacement for Screw, P/N 110537. The change is effective on all model saws that are equipped with Throttle Latch, P/N 85451.

Screw, P/N 110668, is 1/8" longer than Screw, P/N 110537. The increased screw length provides a greater range of trigger adjustment and assures proper starting speed.
