McCULLOCH SERVICE BULLETIN

NO. 1594

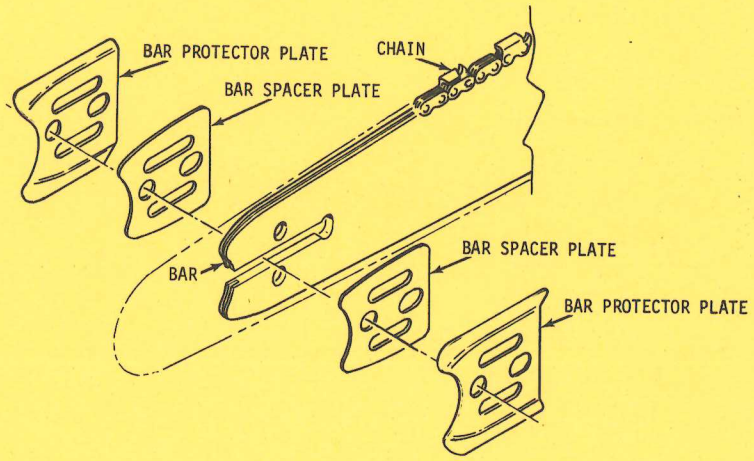

MODEL Large Direct Drive Saws (SP125, SP105 & 795 Series) DATE December 24, 1975

SUBJECT Bar Spacer Plates Kit, P/N 92020.

The new "Speed-Mac" guide bars, P/N 91300, 91301, 91324, and 91336 will require spacer plates if they are used in conjunction with Bar Plates on the large direct drive saws listed above.

To ensure adequate clearance between the chain and the bar protector plates, install the bar spacer plates between the bar and protector plate, as shown in the figure below.

NOTE: Be sure spacers are <u>between</u> bar and protector plates.

Kit, P/N 92020 and instructions are packaged with each "Speed Mac" guide bar listed above.
