MODEL Mac 130 Chain Saws DATE July 1, 1977

SUBJECT Model Number 600017 (11-)

Mac 130 chain saws now being manufactured are identified by Model Number 600017 and Serial Number Prefix 11-. The Illustrated Parts List for these models is P/N 93366. Your distributor should provide you with a copy of this IPL in the near future if he has not already done so.

The Mac 130 is the basic Mini Mac 35 model with the following new features.

A redesigned CHAIN BRAKE assembly has been added which includes a wraparound brake lever/handguard and an extended brake housing which completely covers the muffler as well as the clutch assembly.

A throttle latch assembly has been added to the carburetor. The throttle latch is designed to hold the throttle partially open to assist in starting the engine.

Clutch Assembly, P/N 92743B, which includes Rotor, P/N 92721A, has been designed specifically for use with the new CHAIN BRAKE. The rotor arms have been ground at an angle to reduce sawdust packing between the arms and the clutch shoe. Only Clutch Assembly, P/N 92743B, can be used when servicing units with the redesigned CHAIN BRAKE.

A "C" ring has been added to the clutch spring which increases the clutch engagement speed and allows for easier carburetor adjustment at idle speed.

A louvered muffler is now a standard feature and has been designed to fit under the brake housing.

NOTE: The following changes should be made to IPL, P/N 93366.

1. Figure 1, Item 10, Clutch Assembly, change P/N 92743 to P/N 92743B.

2. Figure 1, Item 15, Rotor, change P/N 92721 to P/N 92721A.

3. Page 3, Delete these service specifications and refer to those on page 7.

4. Figure 2, Item 4, Latch Pivot, change P/N 92485 to P/N 93602.

5. Figure 4, Item 18, delete Gasket, P/N 68747. This gasket should not be used with Muffler, P/N 92962. But, it will be needed to pressure check the cylinder on these units.

Printed in U.S.A.

6. Accessories, Spark Arrester Kit, change P/N 89685 to P/N 85933.

7. Accessories, add Spike Kit, P/N 91735.
