McCULLOCH SERVICE BULLETIN

NO. 1686

MODEL MAC 10-10, PRO 10-10, PRO MAC 10-10, PRO MAC 55 and PRO MAC 555

DATE June 1, 1979

SUBJECT Muffler Kit, P/N 95318, and Screen Cover Kit, P/N 95320

We have re-instated the two-louver muffler cover previously used with flat, non-reed type mufflers (Figure 1). This cover, along with Cover Screen, P/N 89432B, will be included in Muffler Kit, P/N 95318 (previously P/N 89428B), and Screen Cover Kit, P/N 95320.

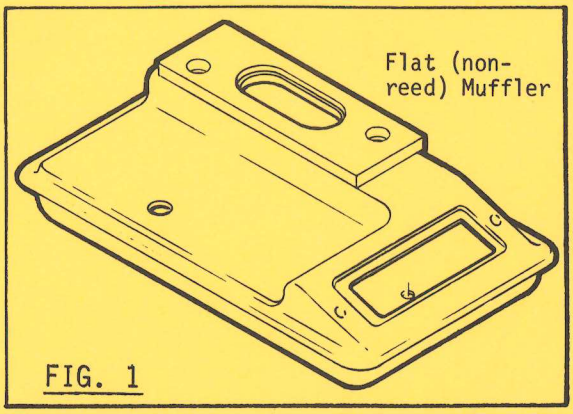

FIG. 1

The two covers are included in each kit for backfitting purposes. The two-louver cover **must** be used on units equipped with clutch guards or CHAIN BRAKE assemblies that do **not** extend over the muffler (Figure 2) to direct the exhaust flow away from operator.

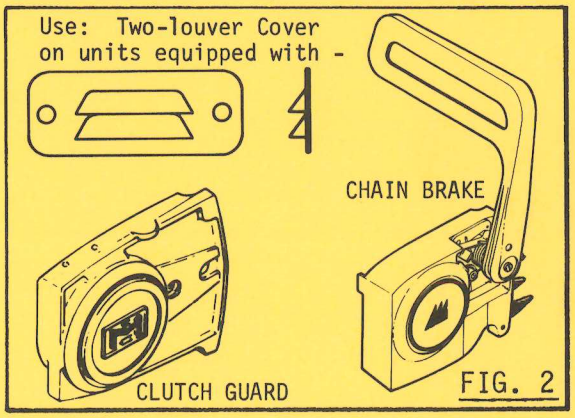

FIG. 2

On units currently equipped with CHAIN BRAKE/ Muffler Shield assemblies that extend over the muffler (Figure 3), either of the muffler covers may be used **except** in the states of Oregon, Washington and California. In these states, units originally equipped with P/N 89432B cover screen **must** use the same type cover screen as service replacement to meet forestry requirements concerning exhaust, gas and skin (muffler and adjacent part surfaces) temperatures. These regulations are strictly enforced in the previously mentioned states.

Units in Oregon, Washington and California that were originally equipped with the two-louver cover may use that type cover as replacement. In other areas, use of either cover is probably optional. However, be certain to check and follow local regulations at all times.

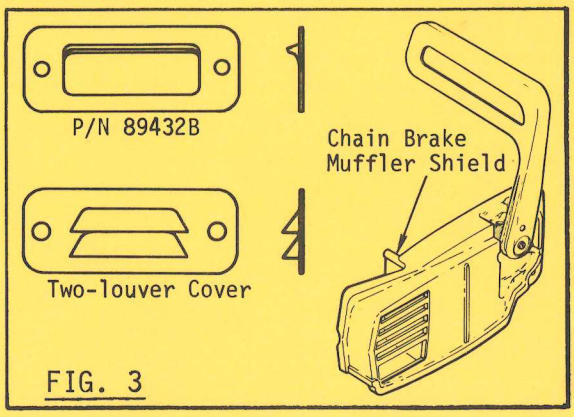

FIG. 3

Please note that all orders for Cover-Screens, P/N 89432, P/N 89432A and P/N 89432B will be filled with Screen Cover Kit, P/N 95320. The manufacturer's suggested list price for this kit is $ .50. All orders for Muffler Assemblies, P/N 89428, P/N 89428A and P/N 89428B will be filled with Muffler Kit, P/N 95318. The manufacturer's suggested list price for this kit is $ 8.85.
