McCULLOCH SERVICE BULLETIN

NO. 1719

MODEL: MAC 60, 70, 80, 95 DATE: December 15, 1981

SUBJECT: STRING TRIMMER (12-)

McCulloch String Trimmers now being manufactured are identified by:

MODEL NAME	MODEL NUMBER*	SERIAL NUMBER PREFIX
MAC 60	400005D	12-
MAC 70	400006D	12-
MAC 80	400007D	12-
MAC 95	400008D	12-

*Reference number only, does not appear on serial number plate.

These new 12- level string trimmers have undergone several major changes for improved durability and ease of service.

Each string trimmer model will be equipped with a spark arrester screen as standard equipment. Each unit will also be manufactured with a dust filter. The dust filter has been added to prevent a build-up of debris under the crankcase assembly.

SPECIFIC MODEL CHANGES INCLUDE:

MAC 60

- A semi-automatic line feeding cutter head that releases fresh line automatically when the head is tapped against the ground. The line is then cut to the correct size by the line cutter, attached to the debris shield.

MAC 60, 70, 80

- A new heavy-duty flex drive shaft and drive shaft housing. The shaft housing is lined with rubber for reduced noise and less vibration.
- A replaceable P.T.O. shaft which will help to simplify service.
- An improved throttle trigger with build-in stop switch that allows you to stop the units without removing your hands from the handle or the trigger grip.
- A debris shield that locks in position to eliminate any movement during the trimming operation.

MAC 95

- A new heavy-duty crankshaft and main bearing for improved durability.
- The removal of the throttle control device. The throttle control device was used to limit engine speed when using the cutter blade. The carburetor's high speed adjustment is preset at the factory to automatically limit engine speed.

  NOTE: The MAC 95 engine speed (when not under load) is 9000-9500 R.P.M.'s. This maximum, when using the cutter blade, must never be exceeded.

Printed in U.S.A.

Attached to this Service Bulletin is a service parts pricing list, (S.I. 192-R1), which lists the Manufacturer's Suggested List Price for all new string trimmer parts.

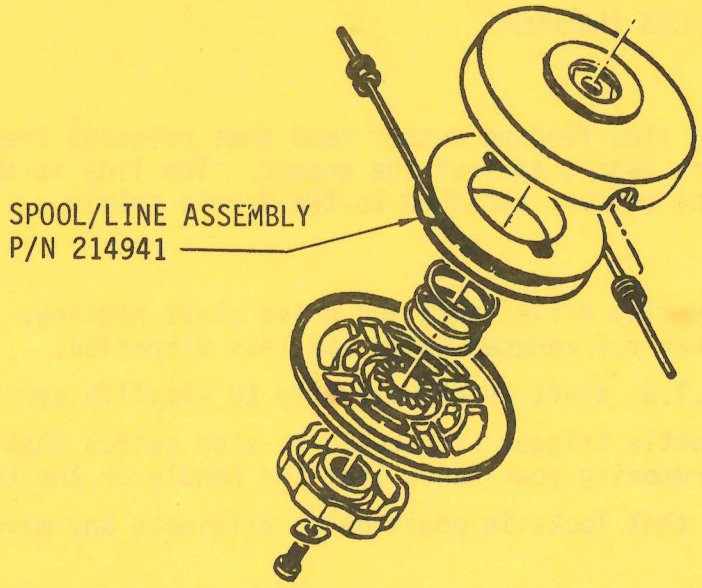

Illustrated Parts List, P/N 214936, for the MAC 60/70 and the Illustrated Parts List, P/N 214935, for the MAC 80/95 have been sent to your distributor. These new I.P.L.'s are for use with the 12- level units only.

Please make the following change and correction to the MAC 80/95 String Trimmer Illustrated Parts List, P/N 214935:

1. Page 3, Figure 2, Item 32; change Screen, P/N 95896, to P/N 213849. The P/N 213849 screen is available in standard service packaging and sold at a manufacturer's suggested list price of $.39. The P/N 95896 screen is available in display packaging at a manufacturer's suggested list price of $2.49.

2. Page 4, Figure 3, Item 24; Shield Assembly, P/N 214887, should be changed to P/N 214896. This assembly has a manufacturer's suggested list price of $10.95.

3. Spool/Line Assembly, P/N 214941, is now available for the MAC 95 String Trimmer at a manufacturer's suggested list price of $2.25. This assembly is included in Cutter Head Assembly, P/N 95878, (See Illustration). Please note this in your copy of Illustrated Parts List, P/N 214935.
