Tillotson®

OW-802
Small size multi-purpose

FUEL TANK PICK-UP FILTERS

- Dependable
- Long Life
- Free Flowing
- Easily Installed
- Fits 3/16" ID Tubing

OW-497
Medium to large size multi-purpose

CHECK THESE QUALITY FEATURES:

1. Tillotson uses only the finest grade of felt
2. All Felts are "tumble dried" to remove excess lint and moisture
3. Pressure is applied to all filter assemblies to blow away any remaining lint

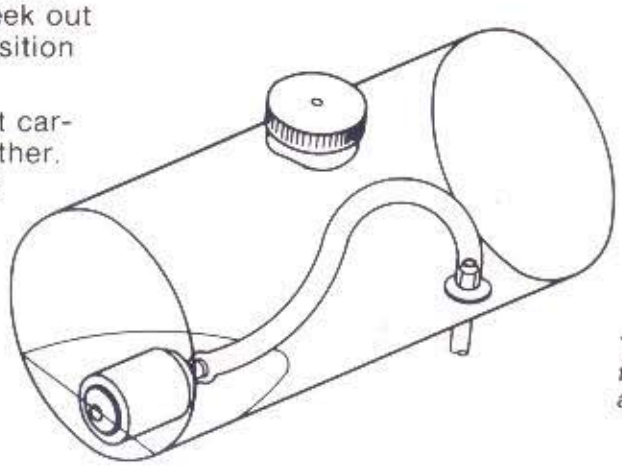

DON'T SETTLE FOR CHEAP IMITATIONS!

With a Tillotson filter, it doesn't make any difference whether the going is easy or rough . . . you can depend on that filter to deliver a full, free flow of fuel any time. And these filters don't have to be fully submerged to deliver . . . they seek out the fuel regardless of its position in the tank.

No need to worry about carburetor failure or foul-up either. The Tillotson filter removes sawdust, dirt, and other foreign matter from the fuel before it reaches the carb. Tillotson filters mean DEPENDABILITY . . .

TILLOTSON FELTS ARE REPLACEABLE

For Replacement Felts Use Part Number:
OW-497—95-172
OW-802—95-182

Tillotson filter...good to the last drop of fuel from any shape of tank.
