Chain Saw

Tillotson

OW-497

FUEL TANK PICK-UP FILTER

EASILY INSTALLED
FITS MOST SAWS • LINT FREE
RESISTS WATER - ICE
LONG LIVED • FREE FLOW!

The Tillotson OW-497 is quickly and easily installed on practically every chain saw. It seeks fuel when saw is in any position. The filter does not need to be fully submerged to deliver a full, free flow of fuel. Users swear by its dependable performance when the going is rough and temperatures tumble.

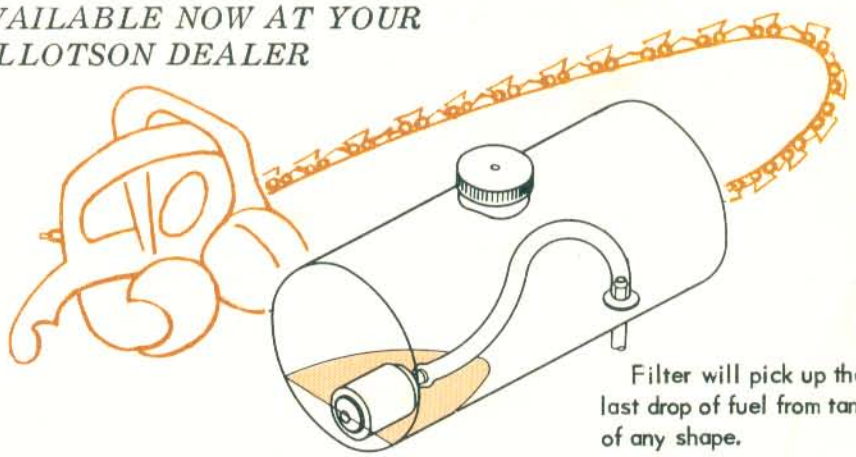

75¢ LIST

Despite its low cost, the OW-497 Filter has an exceptionally long and trouble-free life. It filters out sawdust, dirt and foreign matter, thereby reducing downtime. Flow resistance is very low. The hazards of sawdust and moisture, two chief causes of chain saw failure, are virtually eliminated with this perfected filter.

For maximum sales, display the OW-497 on your "See-BAG" board.

AVAILABLE NOW AT YOUR TILLOTSON DEALER

Filter will pick up the last drop of fuel from tank of any shape.
