INTRODUCTION

The McCulloch Publications Guide is published to provide a reference to the part numbers of Manuals and Illustrated Parts Lists for McCulloch Products. Also included is a cross-reference to the microfiche index of the McCulloch Microfiche Technical Service Library (P/N 90269-07).

Products are listed by model name in alphabetical order.

The model name is preceded by an illustration of the product for easy general identification. To identify the specific model, refer to the model number and prefix.

The model and serial numbers of products manufactured since 1967 are stamped on the identification plate or the identification label attached to the product. Please note that current models have a suffix number (-01, -02, -03, etc.) after the model number. Earlier units have a suffix letter (A, B, C, etc.) **Electric products do not have serial numbers.**
